  your State or Tribe. See 40 CFR part 170.

- The state of Arizona has not approved this product for use on sod farms (an agricul-
  tural use). Do not use this product on sod farms. Do not use this product on uses consid-
  ered agricultural uses.

- Use this product only in accordance with its labeling and with the Worker Protection
  Standard, 40 CFR part 170. This standard contains requirements for the protection of
  agricultural workers on farms, forests, nurseries, and greenhouses and handlers of
  agricultural pesticides. It contains requirements for training, decontamination, notifica-
  tion and emergency assistance. It also contains specific instructions and exceptions
  pertaining to the statements on this label about personal protective equipment (PPE) and
  restricted-entry interval. The requirements in this box only apply to uses of this product
  that are covered by the Worker Protection Standard.

- Do not enter or allow worker entry into treated areas during the restricted-entry inter-
  val (REI) of 4 hours.

- Do not apply this product in a manner that involves contact with anything that has been
  treated, stored, or transferred in any way. Do not apply to areas where rainfall is possible.

- Do not apply to any body of water, including streams, irrigation water or wells. Do not apply
  where runoff water may enter a body of water. Do not apply this product through any type
  of irrigation system.

- Do not apply this product to turf under stress from drought, insects, disease, cold tempera-
  tures, high temperatures of above 85°F on cool season grasses, or disease, cold tempera-
  tures, high temperatures of above 85°F on warm season grasses.

- Allow one week between the application of Quai-Piro MSM Turf Herbicide and other pes-
  ticides. Quai-Piro MSM Turf Herbicide may not be used in the same area as other herbicides
  or crop protectants. There may be carryover of other herbicides and crop protectants.

- Prevent drift of Quai-Piro MSM Turf Herbicide to areas not to be treated. Do not apply
  directly to water or to areas where surface water is present or to intertidal areas.

- Do not apply directly to water, or to areas where surface water is present or to intertidal
  areas. Do not apply this product through any type of irrigation system.

- It is a violation of Federal law to use this product in a manner inconsistent with its label.

- When overseeding, wait 2 months (8 weeks) after application. Do not apply to any body
  of water, including streams, irrigation water or wells. Do not apply where runoff water may
  enter a body of water. Do not apply this product through any type of irrigation system.

- Do not apply this product to turf less than 1 year old.

- Do not apply directly to water, or to areas where surface water is present or to intertidal
  areas. Do not apply this product through any type of irrigation system.

- Do not apply to any body of water, including streams, irrigation water or wells. Do not apply
  where runoff water may enter a body of water. Do not apply this product through any type
  of irrigation system.

- Do not enter treated areas without protective clothing until the PPE is immediately available
  for use in an emergency, such as a spill or equipment washwaters. Do not apply this product
  in a manner that will contact workers or other persons, either directly or through drift, or
  equipment washwaters. Do not apply this product in a manner that will contact workers or other
  persons, either directly or through drift, or equipment washwaters.

- When preparing and using this product, always follow all label directions and precautions.

- When using this product, wear appropriate protective equipment as noted on the label to
  protect against the hazards noted.

- DO NOT ENTER TREATED AREAS DURING THE RESTRICTED-ENTRY INTERVAL (REI)

- BE AWARE, this product contains methyl 2-[[(4-methoxy-6-methyl-1,3,5-triazin-2-yl)-amino]carbonyl]amino]sulfonyl]benzoate... 60.0%

- FOR USE ON TURF.

- USE PESTICIDES WITH COMMON SENSE

- To avoid injury or loss of desirable trees or other

- In the event of an emergency:

- In the event of an emergency:

- If in eyes:

- CAUTION

- Do not enter or allow worker entry into treated areas during the restricted-entry inter-
  val (REI) of 4 hours.

- Do not apply directly to water, or to areas where surface water is present or to intertidal
  areas. Do not apply this product through any type of irrigation system.

- Do not apply to any body of water, including streams, irrigation water or wells. Do not apply
  where runoff water may enter a body of water. Do not apply this product through any type
  of irrigation system.

- Do not apply this product to turf less than 1 year old.

- Do not apply directly to water, or to areas where surface water is present or to intertidal
  areas. Do not apply this product through any type of irrigation system.

- Do not apply to any body of water, including streams, irrigation water or wells. Do not apply
